VOLUME D

RESIDENTIAL CARE

PREFACE

The Children and Young Persons Act 2001 introduces reforms of law relating to the care and welfare of persons under the age of 18 years. It is based, in large part, on the Children Act 1989 of Parliament. It re-enacts Parts I and II of the Family Law Act 1991.

Part 8 of the Act deals with Proceedings involving Children and Young Persons. Part 9 deals with fertilisation, embryology and surrogacy. The Guidance provided in this series covers the remaining eight parts of the Act. These two important aspects are covered elsewhere.

This Guidance is issued by the Department of Health and Social Security as one of a series designed to explain the principles of the Children and Young Persons Act and to consider their implications for policy, procedure and practice. It is written for managers, practitioners and anyone who is interested in children and families who may be affected by the Act. Though drafted before the Act comes into force it is written in the present tense.

This volume is based on the guidance relating to Parts VI and VIII of the Children Act 1989, and Schedule 6.

For ease of reference and to avoid constant repetition the relevant part of the Act or other statute or publication is shown in the left hand column, next to the passage to which it relates.
